Let's
build
something
cool.

ABOUT ME

CSE student at Bennett University, passionate about technology, problem solving and building cool stuff. I love working on projects that combine software, hardware and design — from student productivity apps to AI-powered systems. I also enjoy graphic design, video editing and creating visually appealing experiences.

EDUCATION

B.Tech in
Computer Science Engineering
2026 – Present | Greater Noida

EXPERIENCE

Freelance Developer & Designer

2021 – Present | 4+ Years

- Worked with multiple clients on web development, graphic design, video editing and custom software solutions.
- Built brand identities, promotional content and full-stack web applications.
- Delivered projects across diverse domains and collaborated with international and domestic clients.

SKILLS

Programming

Python

C++

JavaScript

TypeScript

Dart

Web & App Development

React

Next.js

Flutter

Tailwind CSS

Supabase

Tools & Platforms

Linux

Git

Docker

VS Code

Figma

Design & Media

Photoshop

After Effects

DaVinci Resolve

Premiere Pro

Illustrator

Core Areas

Networking

System Design

SQL

AI / ML

Cyber Security

PROJECTS

Some things I've built

Aether

Cross-platform student planner app with a dark glassmorphism UI. Includes dashboard, calendar, habit tracker, syllabus tracker and classes tracker. Offline local storage with Supabase backend.

Flutter

Dart

Supabase

Mobile

Productivity

STUDENT
PLANNER

ARQON

AI-Powered Criminal Network Analysis System (SIH 2026). Analyses relationships and patterns to identify criminal networks using data analysis and visualization.

Python

AI / ML

Data Analysis

Visualization

CRIMINAL
NETWORK
ANALYSIS

Netwik

A network monitoring application to track real-time network activity, analyze traffic, and visualize system performance with an intuitive dashboard.

Python

UNIVERSITY
ASSISTANT

ACHIEVEMENTS

Smart India Hackathon 2026

Team Leader

- Led a team to develop ARQON (AI-Powered Criminal Network Analysis System).
- Handled ideation, development, presentation and team coordination.

Microsoft Innovate Hackathon

Team Leader

- Led a team in Microsoft Innovate Hackathon.
- Worked on building an innovative solution and presented to industry experts.
